## THE CHINA MAIL.

The new wing which it is proposed to add to Government House will be built on the east side of the present building. It will consist of two floors, and will contain a ball-room, supper-room, and billiard-rooms, &c. Messrs Bird and Palmer have prepared the plans, which show the following details:—Passing from the present building into the new wing, a short flight of steps leads to an anti-room on the upper floor twenty feet square, on a level about five feet above that of the ground floor of the existing building. The anti-room forms a sort of vestibule to the ball-room, which is a spacious hall with sixty by forty feet floor space, and about 27 feet high. The walls are relieved by Corinthian pilasters and a deep cornice, the ceiling being coved and broken up into panels. On the south side of the room is a small recess for the band, and a small retiring room. Off the anti-room through which the ball-room is entered, is a billiard-room, which is a spacious hall with sixty by forty feet floor space, and about 27 feet high. The walls are relieved by Corinthian pilasters and a deep cornice, the ceiling being coved and broken up into panels. On the south side of the room is a small recess for the band, and a small retiring room.

A report has been circulated from the Chinese Legation in London, and son of the Viceroy Li Hung-chang, will have Europe about the end of the month (Feb.) on his return to China.

Viscount La, of the Chinese Legation in London, and son of the Viceroy Li Hung-chang, will have Europe about the end of the month (Feb.) on his return to China.

The SINGAPORE ARSENAL.—We hear that Messrs Shaw Eshby & Co. have despatched the s.s. Northern to Singapore and that a part of her cargo consists of the two 10-inch guns yet to be delivered. Messrs Paterson Simons & Co. are the consignees, and the heavy material, guns, piers, platforms and carriages, will likely be discharged at New Harbour. The Northern left London on the 31st January. This quick despatch is very satisfactory, and our long-standing grivance in now entirely removed.—*Singapore Free Press.*

It is reported from Zurich that the well-known pathologist, Professor Klob, has found in the blood of influenza patients great numbers of monads similar to the organisms which produce malarial fever.

The Austrian-Hungarian Lloyd Company at Trieste intends to sell its extensive ship-building yard, in order to procure funds for new vessels. Negotiations have already been opened with German firms. The company will declare no dividend for 1889.

The Mercury will shortly be commissioned by Captain J. P. Pipon, to relieve the Coriolis in China, the latter vessel being then transferred to the Australian command.

Captain Pipon, who was promoted that just three years ago, commanded the *Mayne* during the recent manoeuvres.

By the last transport to Franco-Chinian the French authorities sent several thousands of boxes of 1889 paper "for selection and incense" for the use of the marines.

"Better late than never," says the *France Maritime*, and our brave little marines will certainly make good use of them.

The Taiwan Gate of Kweichow having been destroyed by fire, the Governor has promised the Throne that he will supply the necessary materials to repair it. It is understood that they have already reached Nanking, and that the Viceroy Tseng has been ordered to forward them to their destination.

INFLUENZA is spreading with that rapidity which has distinguished the epidemic at home, and there is scarcely a Chinese house in the district of Teluk Ayer Street where one or more is not suffering from the disease. One of the Chinese Municipal Commissioners is down with it, as well as a large number of his relatives and servants.

The hospital is resorted to by the suffering poor of all nationalities. It is as the Committee say, inspiring, not only in Hongkong but in the surrounding country, confidence in its benevolent ministrations and in Western medicine generally, while it is becoming more and more useful as a training institution for native medical students. In their appeal to the community, the Committee say:—

"It is found as a matter of experience that the large proportion of those most requiring the benefits of the Hospital belong to the very poorest classes, unable to pay even a fraction of the ten cents a day nominally charged for food, but paid by contractors who, in fulfilling the contract, the funds of the Hospital have suffered the admission of only the most pressing cases, many who might with advantage have been received, as in-patients being treated in the Out-patient department, while Hospital beds have been unoccupied and the development of this important department of the work must largely depend on the liberality with which the necessary money are supplied. Subscribers to the funds have the privilege of sending patients to the Hospital at all hours of the day and night. Admission cards may be had by application at the Hospital. Subscriptions may be estimated to E. W. Marland, Esq., Hon. Treasurer of the Hospital, Dr Chinnery, Dr J. C. Thomson, or any member of the Finance Committee. Subscription sheets will also be found at Messrs Lane, Crawford and Co., Messrs Kelly and Walsh, Ltd., and Messrs Kruse and Co. An appeal similar to the above is being circulated among the Chinese portion of the community.

The Hudson's Surprise Party met with an enthusiastic reception wherever they travelled in India, and the same welcome awaited them in Singapore. Writing of their second performance, the *Singapore Free Press* says:—The performance of this Company last night confirmed the impression of the first performances, that Mr. Hudson had brought to Singapore a body of artists with talents varied enough to furnish a good many nights' amusement. The very fact of the Company being able to show so many sides of its talents furnishes at the same time something pleasant for each one of the audience and matter for the critics. While of the items will please most depends entirely on the taste of the hearer and while some may give the palm to the more truly artistic and delicate singing of Miss Barber and the accomplished playing of Miss Habgood, others will appreciate the broad fun of the "Social Gatherings," the skitful dancing of the Misses Roberts and Linton, or the graceful and marvellous performances of "Ours." The rounds of applause which greeted almost every item of the programme and the frequent encore were a sufficient indication that the audience had come to enjoy itself, and was doing so.

THE PROPAGATION OF ISLAM.—A. M. Hume dan Missionary is about to leave Bombay for Europe for the purpose of preaching the excellence of his faith to Christians in the course of next spring.

THE USE OF THE ENGLISH LANGUAGE.—English is coming increasingly into use, not only in the Far West, but in the Far East; and the fact that it was chosen as the tongue in which to record many events of the highest importance between Russia and China is remarkable, not only as testifying to the spread of the language, but because of the nature of English, which was long regarded as the only language of diplomacy.

Surg.-Gen. R. Lower has been appointed principal medical officer on the Staff of the Home District, with headquarters at Whitechapel.

The Government, it is said, intend to pass an enactment enabling the liberty hitherto given to the Chinese to take land or leases in Netherlands India.

Viscount La, of the Chinese Legation in London, and son of the Viceroy Li Hung-chang, will have Europe about the end of the month (Feb.) on his return to China.

Subscription sheets will also be found at Messrs Lane, Crawford and Co., Messrs Kelly and Walsh, Ltd., and Messrs Kruse and Co. An appeal similar to the above is being circulated among the Chinese portion of the community.

The Taiwan Gate of Kweichow having been destroyed by fire, the Governor has promised the Throne that he will supply the necessary materials to repair it. It is understood that they have already reached Nanking, and that the Viceroy Tseng has been ordered to forward them to their destination.

INFLUENZA is spreading with that rapidity which has distinguished the epidemic at home, and there is scarcely a Chinese house in the district of Teluk Ayer Street where one or more is not suffering from the disease. One of the Chinese Municipal Commissioners is down with it, as well as a large number of his relatives and servants.

The hospital is resorted to by the suffering poor of all nationalities. It is as the Committee say, inspiring, not only in Hongkong but in the surrounding country, confidence in its benevolent ministrations and in Western medicine generally, while it is becoming more and more useful as a training institution for native medical students. In their appeal to the community, the Committee say:—

"It is found as a matter of experience that the large proportion of those most requiring the benefits of the Hospital belong to the very poorest classes, unable to pay even a fraction of the ten cents a day nominally charged for food, but paid by contractors who, in fulfilling the contract, the funds of the Hospital have suffered the admission of only the most pressing cases, many who might with advantage have been received, as in-patients being treated in the Out-patient department, while Hospital beds have been unoccupied and the development of this important department of the work must largely depend on the liberality with which the necessary money are supplied. Subscribers to the funds have the privilege of sending patients to the Hospital at all hours of the day and night. Admission cards may be had by application at the Hospital. Subscriptions may be estimated to E. W. Marland, Esq., Hon. Treasurer of the Hospital, Dr Chinnery, Dr J. C. Thomson, or any member of the Finance Committee. Subscription sheets will also be found at Messrs Lane, Crawford and Co., Messrs Kelly and Walsh, Ltd., and Messrs Kruse and Co.
